**5.00pm – 8.30pm**

Dear Parents and Students,

You are invited to attend the Years 9, 10 & 11 2018 Subject Selection Expo to be held on Wednesday August 2, 2017.

This Expo, where all information can be shared on one night for the convenience of our families, replaces the traditional year level subject selection nights held over two evenings in previous years.

At this meeting detailed information will be given related to the curriculum and the elective structure for Years 9, 10 and 11 in 2018, including the core and elective learning. The formal part of the evening involves Information Sessions at various times for each year level in the Tony Frizza Stadium. Elective displays will be open in the Galilee Centre between 5pm and 8.30pm and parents are strongly encouraged to view these displays and discuss choices and options with staff from 5pm. These displays will take place on both levels of the Galilee Centre and information will be available on arrival.

A summary of the evening is below:

It is important for each student and parent to attend this evening. The subject information for Years 9, 10 and 11 2018 will be available on the College Website. Clear and detailed information will be given about the process of selecting electives at the Information Sessions and from the various Learning Areas.

- A **SAMPLE** Elective Preference Form will be given to students prior to this evening.
- **THE ELECTIVE PREFERENCE FORM** that needs to be completed and returned to the College will be distributed to students during morning Pastoral sessions the following day.
- This form must be returned by the indicated due date.

**NB. Car parking will be restricted on this evening and there may be a need to park on Hawthorn Road.**

**A P & F Sausage Sizzle outside the canteen and a P & F Coffee stall will operate on this night with sausages in bread and coffee being available for purchase. Funds raised will go to charity.**

We look forward to seeing all parents and students moving into Years 9, 10 and 11 2018 next Wednesday.
