

EMMAUS  
COLLEGE

# Camps and Extracurricular Tours

The **Year 7 Camp** to Rawson, Gippsland usually takes place in February each year. It is part of the orientation/transition program for our new Year 7 students. The camp includes many activities and is conducted over 3 days/2 nights. The aim of the camp is for students to get to know each other and their teachers and become more confident about being part of our Emmaus community. The camp allows students to participate in activities such as rock climbing, abseiling, canoeing, bushwalking and four-wheel driving in a safe and fun environment.

## Year 7 Orientation Camp

The **Year 8 Canberra** trips take place in May and August each year and are part of the Civics curriculum. It's a lot of fun, but educational as well - with visits to Parliament House, the War Memorial and the Royal Mint, just to name a few.

There is a choice of eight **Year 9 Discovery Camps** including the World Challenge Thailand expedition. These camps cater to the different needs and interests of all students. They take place in October/November each year.

**Year 8 Canberra Trip | Y9 Discovery Camps**

The **Tour of Europe** takes in the wonderful sights (and tastes!) of many cities. Our trip next month will include visits to London, Amsterdam, Germany, Salzburg, Venice, Siena, Rome and Pompeii. The tour is conducted over three weeks and occurs in April every second year.

## Europe Trip

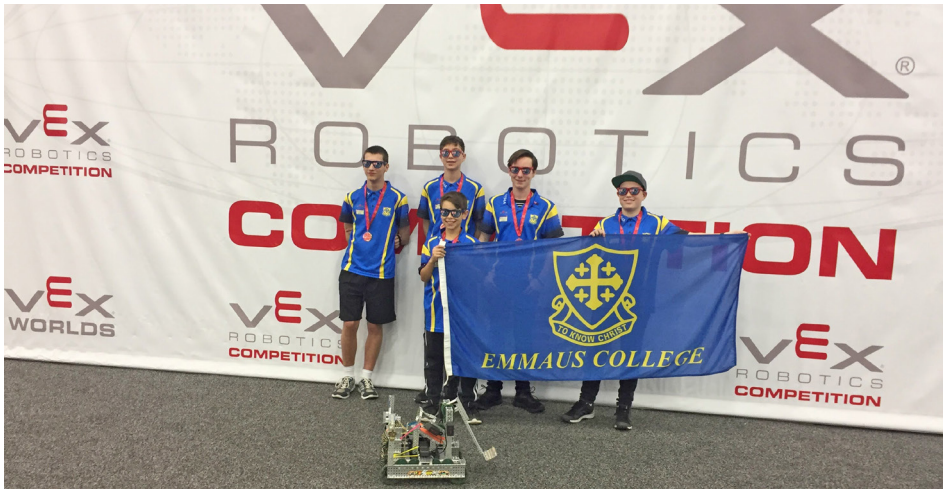

---

Students from Years 11 and 12 are offered the opportunity to travel to **Central Australia** in July every second year. This tour is always popular, with 169 students travelling on four different buses in July this year to Australia's heartland.

Students will visit Coober Pedy, Uluru, Kata Tjuta, Kings Canyon, Alice Springs and the Western McDonnell Ranges over a period of 8 days/7 nights.

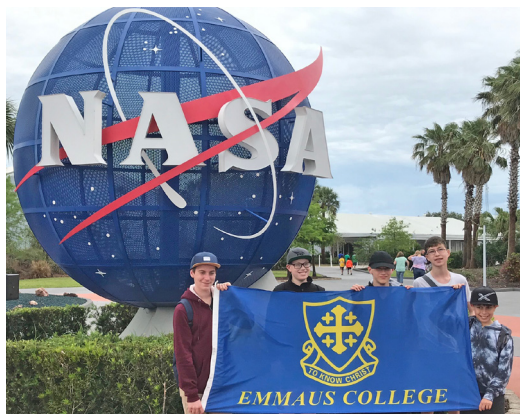

## Central Australia

In April 2019 the Emmaus Robotics team travelled to Louisville, Kentucky for the **VEX World Championships** and competed with 95 other teams from around the world. It was the second time in three years, Emmaus College qualified for the VEX World Championships, after an excellent result at the Australian Championships.

The Emmaus College Robotics team received the VEX World Championships Energy Award for their division.

VEX Robotics

For the past eight years, Emmaus College and Kennedy Catholic High School in **Seattle** have shared a Sister School relationship. Every year a visit takes place in either Australia or the United States. Participants attend classes whilst enjoying the sights and sounds of Seattle. At the end of Term 3 2019, Emmaus travelled to Seattle, via a very enjoyable and educational stopover in Hawaii.

USA – Seattle

Language students have the opportunity to travel to our Sister Schools in **Italy** and **Indonesia** every two years, and to **Germany** every year.

The exchange trip to Italy begins with a week at our Sister School in Pinerolo, and continues with a tour visiting Venice, Florence, Pisa, Rome and Naples.

The trip to Indonesia starts with an exchange at our Sister School in Jakarta and ends in Bali. The students take part in many activities to enhance their knowledge of the country and its culture.

Year 10-11 students of German have the opportunity to travel to Germany at the end of every year to our Sister School in Ostbevern. The exchange program ranges from 3-8 weeks duration.

## Language Exchange Tours
